HOME IMPROVEMENT INSPIRATION

HIGH END INSTALLATIONS & EXPERT EXTENSIONS

Over 20 years of industry experience makes Oakley Green an excellent choice for your home improvements. With a wide ranging product knowledge and a focus on providing outstanding levels of customer service, with Oakley, you're always in safe hands.

Working with Oakley is always a smooth and hassle-free experience. All our installers are directly employed by us, are fully qualified and have extensive industry experience. A family-run business, Oakley Green take the stress out of every installation.

Our stylish show centres are the perfect places for you to try before you buy. Located at two sites across the south of England, why not pop in to your closest show centre to gain inspiration for your latest home improvement plans.

FENSA

BEAUTIFULLY
DESIGNED

TECHNICAL EXCELLENCE & ARCHITECTURAL SPLENDOUR

At Oakley Green, we provide a full project management service. For complex installations such as glazed extensions, roof replacements or multiple window and door upgrades, we create a detailed schedule to ensure that your project is completed in a professional and timely manner.

DESIGN SERVICES

Expertly designed solutions for all your home refurbishment needs

Our team of highly skilled industry professionals includes a dedicated designer who will work with you to translate your home improvement visions into reality. When it comes to glazed extensions, our designer will speak to you to understand your requirements then make detailed drawings of the proposed extension layout and design.

THE FAVOURITE ROOM FOR ALL THE FAMILY

A SEAMLESS BLEND BETWEEN INTERIOR & EXTERIOR

Conservatories are the most popular extension option for UK homeowners. Their almost endless customisation capacity combined with their superb year round performance, means that conservatories are now the go-to extension option.

A conservatory can provide a multitude of uses. You could use your extra living space for:

- A playroom for the children
- A dining area
- A lounge/living space
- A home gym
- A kitchen extension
- A games room

If your conservatory is large enough, you could even section off two distinct areas to create a lounge/diner, kitchen/diner or play area and relaxing living space.

***We are very pleased with our new conservatory**
It has made such a difference to our home. A big thank you to the Oakley Green Conservatories team, we would thoroughly recommend them.*

CREATING STUNNING PANORAMIC VIEWS

When you want to combine the large glazed area of a conservatory with the more solid feel of a traditional brick-built extension, an orangery is an excellent solution. Orangeries are constructed using solid wall sections to support a lantern roof with plastered perimeter ceiling. Inside, the solid walls and vaulted ceiling make the orangery feel more like an integral part of the home while still admitting plenty of natural light. This wall of glass effect allows extensive views of your garden or exterior space. With super-slim sightlines, you can maximise the panoramic feel to your orangery's glazing.

Orangeries offer homeowners excellent customisation capacity. Inside, the walls and perimeter ceiling can be painted and decorated to your taste. The ceiling can feature stylish downlights to enhance atmosphere and even incorporate built-in speakers for a truly 21st century surround sound experience. When it comes to access to and from your orangery, you could connect with your garden through a set of large sliding patio doors or innovative bi-fold doors. Either way, you'll be able to create a stylish open plan living area which seamlessly connects indoor and outdoor living space.

Looks great - sold on quality

I already enjoy watching the sunset in my gorgeous new space. The kids love the easy access to the garden, and I can relax watching them play.

REALISING YOUR DREAM HOME

Excellent guidance, service and communication from the start
of the project to the end.*

LUXURY DESIGNS FOR THE 21ST CENTURY

GLASS CONSERVATORY ROOFS

A glass replacement conservatory roof can be used to replace any existing conservatory roof system. Using modern thermally efficient glazing, our glass roofs will improve your conservatory's performance to create an extended living area which you can use all year round.

BENEFITS OF A GLASS CONSERVATORY ROOF

- Temperature regulation for an all year ambient atmosphere
- Self-cleaning glazing to reduce maintenance and improve natural light intake
 - Affordable and effective improvement option
- Improved acoustic insulation for a quieter living environment
 - Increased natural light for a brighter living area

BESPOKE INNOVATION MEETS CLASSIC ELEGANCE

SOLID CONSERVATORY ROOFS

Solid conservatory roofs are a great way to transform your existing conservatory. They provide excellent insulating capacity and create a cosier feel to the inside of your glazed extension. Our solid conservatory roofs are fully customisable and are finished with an attractive Urban Grey colour to match any property's aesthetic.

BENEFITS OF A SOLID CONSERVATORY ROOF

- Enhanced thermal insulation
 - Increased privacy levels
 - Cosier interior atmosphere
- Available in a variety of sizes and configurations to suit any home
 - Pre-manufactured to help speed up insulation time

EXCEPTIONAL PRODUCTS FOR SUPERIOR HOME ENHANCEMENTS

UPVC WINDOWS

The most popular choice for UK homeowners, uPVC windows are cost-effective and can be specified to suit any style of property.

ALUMINIUM WINDOWS

Sleek and stylish, aluminium windows are the perfect choice for contemporary properties and are equally suited to more traditional installations.

TIMBER WINDOWS

Full of charm and character, timber windows are ideal for country cottages and period properties and have a unique natural appearance only wood can provide.

WINDOW STYLES TO SUIT ANY HOME

Choosing the right style of windows for your home can make a massive difference to your property's aesthetic. At Oakley Green, we've got a range of windows to suit every installation.

CASEMENT WINDOWS

The classic casement style window is available in a wide range of configurations and can be specially designed to match any property's aesthetics. Our casement windows are low maintenance and can realistically achieve an energy efficiency rating of A+12. Available in uPVC, timber or aluminium, our casement windows are an excellent choice for any home improvement project.

FLUSH SASH WINDOWS

As the name suggests, flush sash windows finish flush with the building's exterior wall. This gives a sleek finish, perfect for creating a stylish appearance to any type of home. Flush sash windows provide excellent levels of performance in terms of security, thermal and acoustic insulation and durability. They are a great choice for traditional properties and are equally suited to more modern installations.

SLIDING SASH WINDOWS

Sliding sash windows are an integral part of many period properties. Their wide opening capacity provides outstanding levels of ventilation while their classic detailing will perfectly complement the traditional style of many heritage properties. At Oakley, our sliding sash windows are fully customisable with the option to add astragal bars, run-through sash horns and a selection of traditional hardware.

BAY WINDOWS

Bay windows are a great way to bring an abundance of natural light into your home. They help to create a feeling of more space and provide panoramic views of your garden or exterior area. At Oakley, we've installed bay windows in a wide variety of property types. Whatever type of home you live in, bay windows could be the innovative addition which will transform your home environment.

SECURITY AND STYLE COMBINED

Having a decent door provides many benefits. A good door should be secure, stylish and energy efficient. It should welcome visitors to your home and provide durable and long lasting protection from both the elements and any attempts at forced entry. Whether you want a brand new front entrance door to add kerb appeal and protection to your property, or you'd like to upgrade your patio doors with an innovative alternative, at Oakley Green we've got a wide selection of doors for you to choose from.

ENTRANCE DOORS

At Oakley Green, our entrance doors are designed to protect and enhance. From new build properties to period homes, there's an entrance door in the Oakley collection to suit all property types and personal tastes. Choose from uPVC, timber, aluminium or composite materials for your new Oakley entrance door and customise your door with a choice of stylish and durable hardware. All our entrance doors provide outstanding levels of thermal and acoustic insulation and are fitted with high security locking mechanisms as standard.

BIFOLD DOORS

When you want an innovative alternative to your home's entrance, bifold doors are an excellent option. Featuring multiple door leaves, bifold doors slide effortlessly open to create an ultra-wide opening to access your garden or patio area. When closed, bifold doors create a stylish glass wall effect. They help to bring a wealth of natural light into your home and you can choose one of the glass panels to function as a normal entrance door. Our bifold doors are available in aluminium or timber in an extensive range of colours.

SLIDING PATIO DOORS

Sliding patio doors are a great choice when you want to maximise natural light intake and limit impact on your home's floor space. Sliding patio doors slide smoothly open on a durable track system and when closed, create a wall of glass effect inside your home. With multiple configurations available, our sliding patio doors are available in either uPVC or aluminium and can be customised with between two and four glass panels.

FRENCH DOORS

Add a touch of continental class to your home with our fabulous French doors. Made from durable and low maintenance uPVC, our French doors will protect your home and provide a timeless elegance with their double opening doors and user friendly action. Available with either open-in or open-out configuration, depending on your space restrictions, French doors from Oakley Green are a popular choice for a wide variety of UK property types.

STABLE DOORS

When you want to add a unique rustic character to your home, stable doors are an excellent choice. Their two separate opening sections enable you to regulate ventilation without compromising security. They are a great choice when you want to provide easy access for pets and are available in uPVC, timber or composite materials. With multi-point locking systems as standard, when both panels are closed, our stable doors function exactly like a normal entrance door.

CASE STUDY

Mr Thorpe-Jones

Oakley Green has provided us with a high-end quality Orangery that has exceeded all expectations. We had a demanding timeline and Oakley Green rose to the challenge completing the build a day short of 7 weeks. One of the key reasons for choosing the company was their willingness to handle the whole process through planning applications, certifications, etc... a "one-stop shop". Throughout, they acted professionally and with integrity.

I would endorse what all the other reviews have said about the friendliness and skill of the trades involved in the build. The brickwork, lantern installation and final finish were amongst the best I have seen. Add to that the use of top quality materials and it's no wonder you feel that the end result is better than the sum of its parts. We are so pleased we engaged Oakley Green to do the build and would have no hesitation in using them again or providing a recommendation for them.

Get in touch with Oakley Green today to start planning your next home improvement project. We have two show sites where you can come and browse our products and speak to our friendly and knowledgeable advisors about your installation requirements.
